TRAVELALL 24

The difference lies in the details.

The TRAVELALL 24 from RoyaleRV starts with a solid foundation, but the state-of-the-art-features, both standard and optional, make this RV a luxury outdoor vehicle surpassing all others in its class.

From the TRAVELALL's front and rear LED TVs to the Bose Bluetooth Soundbar™, to the standard Apple TV with iPhone Mirroring, to the easy-to-use-Smart Integration System that controls all basic systems from interior, porch, and accent lighting to water tank and power/battery status, the TRAVELALL 24 not only takes you on the adventure of your dreams, but does so commandingly, in comfort and with relaxed confidence.

Energy-efficient, self-sustaining.

The TRAVELALL 24 is designed to be energy-efficient and self-sustaining. Top of the line appliances and vehicle systems are designed to provide superior energy efficiency. The large lithium battery supports daily use without shore power. The 300W solar panels and dedicated engine alternator provides quick charging when shore power is not available. Auto start and remote start ensure your lithium battery never runs low and keep your vehicle systems running automatically.

Dimmer Settings

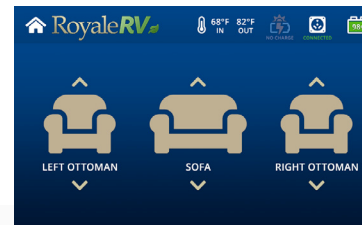

The standard Smart Integration System simplifies how your vehicle's amenities are managed. Heat, cool, water, waste, ventilation, low ambient compensation, onboard power systems, lights, and more are managed from inside the vehicle through a touch screen interface, or optionally from your phone or computer. Below are a few examples of the system's smart integration management screens.

TRAVELALL®

TRAVELALL 24 Interior

All cabinetry is crafted using quality dovetail hardwood by RoyaleRV's experienced woodworkers.

High definition flat-screen video monitors provide dining or evening entertainment.

When not in use, sink converts to generous sized food preparation countertop.

Whether breakfast, lunch or dinner, owners and guests can enjoy an intimate dining experience for four.

Quilted luxury Ultraleather Captain's chairs envelope diners in sumptuous comfort.

Sleeping area electronically converts to bench seating for more room.

TRAVELALL®

TRAVELALL 24 Interior

Dining table is easily removed, seating then electronically converts to a comfortable sleeping area.

Kitchen offers solid surface countertop, ample cabinet and drawer storage, refrigerator and a full-size waste bin.

Chairs and couches in the rear dining area easily convert to various configurations, forming a spacious sleeping area.

Sumptuous and commanding captain's chairs, bench seats, and sleeping couches are upholstered in soft, top-quality diamond pattern leather.

Large picture windows left and right of the sleeping and dining area offer panoramic outdoor vistas, vents and day night shades.

Top-quality fixtures and fittings match the quality and reliability of a Mercedes-Benz vehicle.
